Stillwater Billings Clinic and Stillwater Family Pharmacy Team Up to Vaccinate Public

March 3, 2021 – Columbus, Montana. Stillwater Billings Clinic and Stillwater Family Pharmacy are teaming up to get COVID-19 vaccines administered to the public. Stillwater Billings Clinic continues to receive allocations from the State and Stillwater Family Pharmacy has also received Federal Vaccine allocations.

Stillwater Billings Clinic and Stillwater Family Pharmacy are partnering to get these vaccines out to the Stillwater community in a timely, efficient, and safe manner.

Local area residents interested in receiving the COVID-19 vaccine need to contact Public Health at 322-1070. Leave a first and last name (spelled out), date of birth, and contact phone number. Individuals on the list will be contacted in the order in which the calls are received. This list will be shared between our Public Health Office and Stillwater Family Pharmacy so that we can reach individuals as quickly as possible.

Please continue to practice safe social distancing, stay home when not feeling well, continue proper handwashing, and wear masks when possible.
